

# Certificate

TÜV AUSTRIA SERVICES GMBH  
confirms for

**AMAG casting GmbH und AMAG rolling GmbH**  
Lamprechtshausenerstraße 61  
5282 Ranshofen

to have met the requirements according to EN ISO 14067 for the  
calculation of product-carbon-footprints (cradle-to-gate)  
of aluminum rolled products and cast alloys.

As part of an audit, the calculation method based on the  
product-carbon-footprint Study (December 2022) created by  
AMAG casting GmbH and AMAG rolling GmbH  
was validated with a sufficient level of certainty.
